ATEX-certified filter silo for Zone 22 for centralized vacuum systems

INDUSTRIAL VACUUMS

- Compliance to EN IEC 62784:2018 for zone 22

Suction Unit		
ATEX Zones		Zone 22 Powders
EX Category		CE EX 22 1/3D
Nozzle	mm	80-120-160

Filter Unit		
Primary filter		Sleeves
Surface area - diameter	cm^2-mm	60.000/110.000 - 800/1000
Filter media - class	IEC 60335-2-69	M ANT Hydro-oleo repellent
Cleaning system		Automatic PN

Collection unit		
Capacity	lt	250-600-1000
Cyclonic unit		Integrated
Exhaust system		Release container

Encumbrances		
Dimensions	cm	143-147x99-108x369-386h

APPLICATIONS: CEMENT PLANTS Sandblasting Food, chemical and pharmaceutical industry

ATEX-certified filter silo for Zone 22 for centralized vacuum systems

INDUSTRIAL VACUUMS

FILTER UNIT

High surface area sleeve filters for fine dust with self-cleaning system

COLLECTION UNIT

The vacuumed material is collected in a stainless steel detachable container, mounted on wheels, which allows for quick and clean disposal. Bagging is also possible.
