

- A powerful by-pass motor with independent cooling
- Extremely silent.
- **⊘** Compact and portable industrial vacuum cleaner.

Suction Unit		
Power supply	V - Hz	230 - 50 1~
Power	kW	1,1
Maximum depression	mmH2O	2.400
Maximum air flow rate	m3/h	180
Noisiness (EN ISO 3744)	dB(A)	67
Filter Unit		
Primary filter		Sack
Total filter surface area	cm ²	2.000
Filter media - class	IEC 60335-2-69	Polyester L
Cleaning system		Handbook
Collection unit		
Capacity	lt	34
Encumbrances		
Dimensions	cm	37x39x68h
Weight	kg	12

APPLICATIONS:

General housekeeping

SUCTION UNIT

Suction is generated by one carbon brush by-pass motor activated by independent switches located on a solid metal head that protects the motor from possible blows and ingress of external bodies, keeping the noise level to a minimum.

FILTER UNIT

The polyester bag filter, placed inside the filter chamber, guarantees a large filtering surface area and high resistance to dust passage and clogging.

COLLECTION UNIT

The vacuum cleaner consists of a stainless steel drum with impact protection around the container equipped with swivelling wheels. It is possible to bag the dust directly in black waste bags.
